

Great Object Hunt

at the Whipple Museum

This Museum is full of wonderful inventions. Follow this trail to discover more about different gadgets and instruments.

Main Gallery

These are the shadows of different objects. Can you find them all?
Use the dotted lines to write down what they are.

.....

.....

Globes

Through time, globes have been made and used by different people in very different ways.

How many globes of different planets can you find in the galleries?

Mars

Earth

Venus

Think about the people who would have used the globes in this gallery.

Tick the box when you think you have found:

A globe used as a toy ☐

A globe used by sailors to learn about the stars ☐

A globe that would make the perfect gift ☐

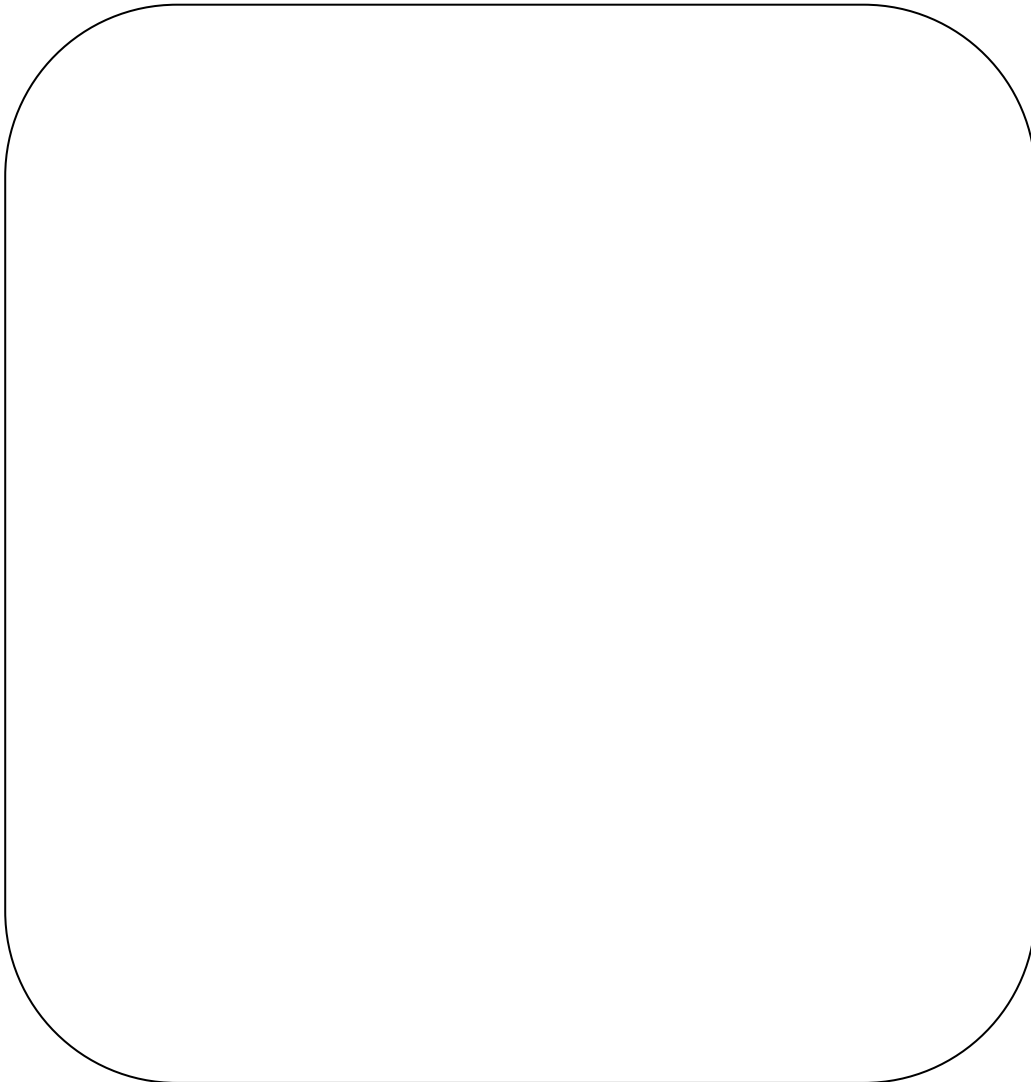

A globe that could be used to decorate a room ☐

Now it is time for you to come up with your own invention!

You do not need to think of something new, it could be a better version of something that has already been invented.

Draw your invention in the box below.

Now carefully write a label for your invention:

Name:

.....

Made out of:

.....

Instructions for use:
